

What to Bring to Vavaghio Guest House

Please use the following as a guide and not a complete list:

Clothing

- Shorts and t-shirts are generally all that you require (*cotton/ breathable/ quick dry fabrics are best*)
- A long sleeve top and trousers are advised for cooler/wet weather
- Flip-flops/jandals are adequate footwear
- A light **waterproof** rain jacket for boat trips and wet weather
- Swimwear

Other

- Insect repellent is essential to protect against the mozzies (*they are only a problem in the evenings and mosquito nets are provided for the beds*)
- Sun screen is essential and sunglasses and hat will complement your sun protection
- A good torch is a useful item
- Snorkel gear is highly recommended. We have some sets but may not have enough or your size.
- If you want to spear fish, you should bring your own spear gun
- Bring fishing gear if you want to fish in the style you are accustomed to; Local line fishing is with hand line (both bait fishing and trolling) so you may want to bring your favourite rod. Lures that are suitable for tuna & pelagics should work well here (red & white seems to be the best colour combo). Fish sizes vary hugely from smallish reef fish to large bottom-dwellers & pelagics, so hook and line sizes for bait fishing need to cover these ranges. Some hooks are available locally, but lures are limited and tend to be a bit expensive. Shallow divers work well on Spanish Mackerel and Giant Trevally. The larger fish are meat-eaters and so wire trace is essential if you don't want to lose your collection of lures!!
- Surfboards; a couple of shortboards should be sufficient, maybe a step-up board in case the surf jacks up a notch during your stay. Spare fins, a couple of leashes, tropical wax, rash shirt for the sun (definitely no wetty top!!). Booties can be handy for the reef.
- Toiletries
